

PRÉSENTATION HORIZONTALE - VARIABLE EN ÉQUIPEMENT
HORIZONTAL PRESENTATION - VARIABLE IN EQUIPMENT

Avec son design élégant et indémodable, notre système PUR 2 offre une possibilité optimale d'intégration dans divers concepts et ambiances de magasins. L'élément de base est une tige fine sur laquelle les composants du système peuvent être, grâce à l'adaptateur synthétique, très aisément encliquetés. Avec PUR 2 aussi l'agencement de la surface de présentation est extrêmement variable et peut être à tout moment modifié avec peu de manipulation.

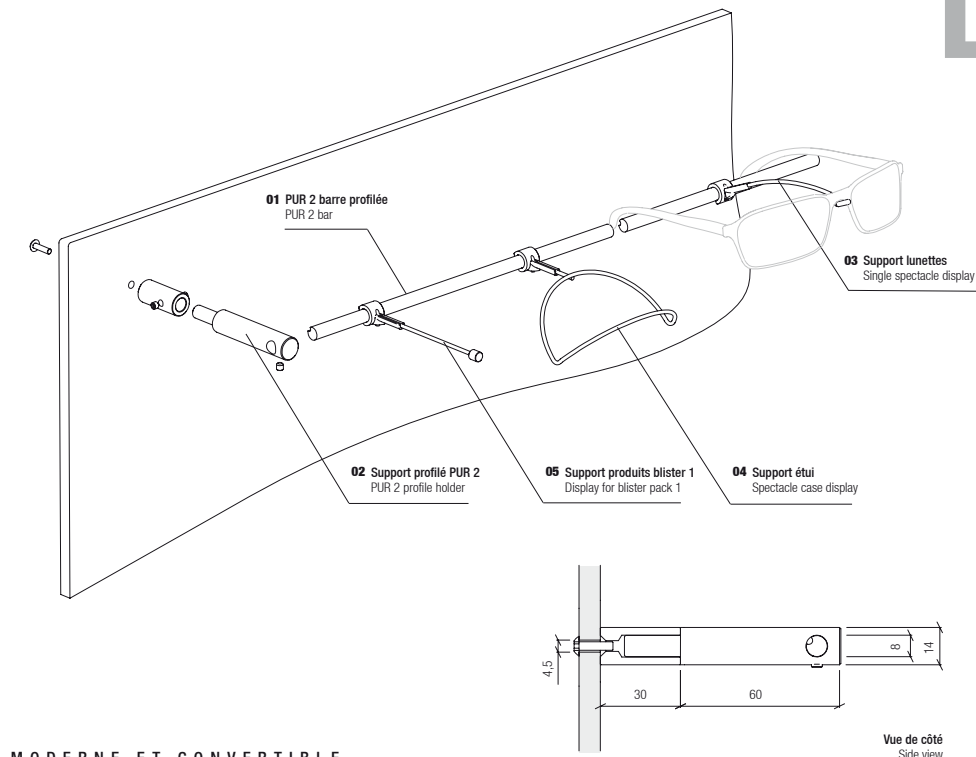

With its classy and timeless design our PUR 2 system provides the optimal preconditions for being integrated into the most different shop concepts and ambiances. The basic element is a sophisticated bar where system components can be clicked onto easily by means of a plastic adapter. For this reason PUR 2 is also extremely versatile for designing a display area and can be customized at any time with little effort.
